

Student Club Portal Component Diagram

Shishir Hegde | PES1UG24CS438 | Section 5H

Presentation layer

Users | Clubs | Events | Budget items | Approvals | Tickets

Interface key

Circle = provided interface Semicircle = required interface Small square = port

UI to services: HTTP forms / JSON endpoints. Services to repository: parameterised SQL.

The consumer is above the provider. Each ball and socket pair is an assembly connector.

Logical components share one Flask application. There are no separately deployed microservices.
